STATUS LETTER

Dear Sir:

A notice was mailed on October 13, 2004 which stated that the application requires a substitute Specification, which is believed to be in error as this application was prepared by your new authoring program. And a response to this effect was mailed on October 22, 2004, but to date no reply has been forthcoming as to the status of the application and the PARE records show no change in the status of this application. Please confirm that the application is complete.

Respectfully submitted:

Ernest A. Beutler
